

ViniComplex™ XS Application Instructions

STEP 1

Add 100g of ViniComplex™ XS to 500ml wine or water at temperature 35-40°C.

STEP 2

Stir well until you have a homogenous suspension without any solids.

STEP 3

Add to the wine making sure the suspension is evenly distributed.

STEP 4

4-6 weeks is the optimal reaction time. After adding ViniComplex™ XS please avoid any filtration for minimum 10 days.
